SEO & LISTING OPTIMISATION TIPS

1. Use the exact phrase 'wedding planner' in the first 40 characters of your title
2. Include the current year (2025) as buyers often search for new editions
3. Add format keywords: 'printable', 'digital', 'GoodNotes', 'Excel', 'Google Sheets'
4. Use all 13 tag slots — each tag can be up to 20 characters with spaces
5. Tags should be phrases buyers actually type: 'wedding budget tracker' not 'budget'
6. Repeat your 2–3 most important keywords in your description naturally
7. Include long-tail keyword phrases in your description (they help Etsy search)
8. Update your listing every 3–6 months to stay fresh in Etsy's algorithm
9. Use all 10 listing image slots — buyers who see more images convert better
10. Enable 'Personalisation' and tell buyers to message their wedding date for a custom cover
